

3.5 Forklift

AMF35

Description

The Revaro Agrimech AMF35 is a robust, versatile forklift designed to tackle the heavy lifting demands of modern farming with ease. With a 3,500 kg load capacity and 3,000mm lift height, it delivers power, efficiency, and reliable performance across a variety of agricultural tasks.

Key Features

- Handles up to 3,500 kg for heavy-duty agricultural tasks
- Smooth, responsive operation with advanced hydraulics
- Compact design allows easy maneuvering in tight farm spaces
- Rugged build endures tough agricultural conditions
- Featuring a standard ergonomic cabin designed for smooth and precise operation.
- Large engine doors for easy access

Rely on the Revaro Agrimech AMF35 to enhance your farm's efficiency and tackle any material handling challenge with confidence.
