Description

Chilanga Virgin Land – 1.11 Hectares with Borehole

Titled Land | Borehole In Place | Agricultural/Residential Zoning

This 1.11-hectare titled virgin land in Chilanga is situated just 5.2km from the Mount Makulu Agricultural Research Station and 10.5km from the Chilanga Civic Council. The land is suited for both agricultural and residential use, providing development flexibility.

A borehole has been installed on the property, handling water supply for farming or residential construction. Mature trees provide natural shade and offer views across the surrounding landscape. The virgin land status means you start with a clean slate for your plans.

Gravel road access connects the property to main routes. The location among established farms puts you in an active area whilst remaining within reach of Chilanga’s services.

The land works for small-farming operations, building a family home with space for gardens, or combining both uses on the same property.

What’s Included:

- 1.11 hectares (2.74 acres) titled land
- Borehole water supply
- Gravel road access
- Mature trees on the property
- Virgin land ready for development
- Views across surrounding area
- 5.2km from Mount Makulu Research Station
- 10.5km from Chilanga Civic Council
- Surrounded by active farms
